

Environmental Policy

It is the intention of MKBarrel Trading FZCO to be an international leader in Technical Solutions for Oil&Gas engineering. We shall accomplish this with competent MKBarrel Trading FZCO personnel delivering quality, performance, reliability, and value creation for all our customers and other interested parties in a responsible manner that protects occupational health and safety and minimizes adverse impact on the environment as a result of our activities.

MKBarrel Trading FZCO has a company-wide commitment to the protection of the environment, including the prevention of pollution, sustainable resource use, climate change mitigation and adaptation, and protection of biodiversity and ecosystems. This means that we aim to consistently manage and reduce the environmental risks associated with all our activities undertaken on behalf of the company.

MKBarrel Trading FZCO operating system (MKBOS) contributes to this commitment. Through the continual improvement of MKBOS, we strive to improve environmental performance thereby meeting compliance obligations and achieving company goals and environmental objectives.

MKBarrel Trading FZCO is committed to:

1. Protect the environment

We believe that our commitment to protect the environment is intended not only to prevent adverse environmental impacts through the prevention of pollution, but to protect the natural environment from harm and degradation arising from our activities. This includes water quality, recycling, air quality, and commitments related to climate change mitigation and adaptation, protection of biodiversity and ecosystems.

2. Fulfil our compliance obligations

We believe that to effectively protect the environment, we need to fully implement all applicable compliance obligations and ensure that our operations are carried out in accordance with these obligations.

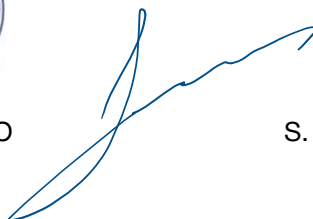

3. Continuous improvement

Success comes from continually improving every aspect of our business. We believe that a systematic approach to managing continuous improvement initiatives leads to improved performance, enhanced organizational abilities, and enhanced environmental protection.
